

Carpet Puzzle

by TTEAM/TTouch Instructor Edie Jane Eaton

This puzzle is a fun diversion and has a lovely and simple solution. I hope that you enjoy it, and if it's not for you – pass it on!

This is a 12' x 9' carpet with an 8' x 1' hole in the centre. The trick is to cut the carpet into two pieces and put the two pieces together to make a carpet with dimensions 10' x 10'.

How might you do that?

The father of a friend of mine – a man I admired greatly – gave it to me about 35 years ago. It took me a while to solve, and I have passed it on to several people in the intervening years, but never heard if anyone solved it – though I did ask them to tell me. They may not have found it as interesting as I did, nor have had as much time on their hands as I did back then in my somewhat misguided youth. Or perhaps they thought it was too easy. Or maybe it didn't get solved...

Please, if you figure it out – do let me know.

Edie Jane Eaton

Edie Jane Eaton is an international Instructor of Tellington Touch and TTEAM, a senior trainer of Companion Animal and TTEAM Practitioners in North America, Europe and South Africa and has been teaching TTEAM workshops since the early eighties. Edie Jane is also a Guild Certified Practitioner of the Feldenkrais Method for humans, from which the TTouch work evolved. She spends much time traveling and teaching TTEAM and TTouch and when at home just outside Ottawa, Canada, she keeps busy with her Feldenkrais Practice. Visit Edie Jane's website, www.ListeningToWhispers.com, to learn more about her and her upcoming workshops.
